WS – Web Student Management

ST – Student

TB – Student Browse/Profile Tabs

Entry – Withdrw – WS/ST/PR/

- 1 – District Level options have been added to control how the district wants to handle attendance that will be orphaned when E/W records are changed or a student is marked as No–Show.

Release / PMP02

Enhancement – Web

Proj# 986355

Entry – Withdrw/Entry – Withdrw Tab – WS/ST/PR/Entry-With

- 1 – The Default Entity Flag will not display unless the E/W record has a withdrawal date.

Release / PMP02

Enhancement – Web

Proj# 1021377

Family /Family Tab – WS/ST/PR/Family

- 1 – An issue has been fixed that caused the Family edit to not save correctly after the user clicked the No Address button to remove the family's address.

Release / PMP02

Correction – Web

Proj# 813304

- 2 – The Guardian and Emergency Contact Add/Edit screens on the Web have been modified to not allow editing of the name if the name is also an active student in any entity.

Release / PMP02

Correction – Web

Proj# 1038594

General/General Tabs/Profile /Profile Tab – WS/ST/PR/General/Profile

- 2 – The Student Profile, Guardian and Emergency Contact Edit screens have been updated to check the Name Case district configuration option. Also, this screen will only change the name key when needed.

Release / PMP02

Correction – Web

Proj# 1044112

General/General Tabs/School Path – WS/ST/PR/General/School Path

- 1 – The School Path tab edit screen has been updated so that it correctly updates the Boundary Override Reason Code history when the option to do so is turned on.

Release / PMP02

Correction – Web

Proj# 944423

Notes Describing Software Updates – This PMP Only
